

# VIHAAN

A  
HALF YEARLY NEWS LETTER  
OF  
AMBALIKA INSTITUTE OF  
MANAGEMENT &  
TECHNOLOGY,LUCKNOW

Issue Date:  
First Issue-Jan. 2018

**"EVEN SKY IS NOT THE LIMIT FOR US".**

## **FUTURE ENDEAVOUR**

*It is our first quarterly newsletter and we'd like to thank the readers of this newsletter for their interest, to faculty and students alike for their participation. We hope for the next issue we get many more interesting articles. We wish our students All the Best for their future accomplishments.*

***We Beat Them All***

**"Nothing has ever been achieved  
Without great enthusiasm"**

*The enthusiasm and dedication shown by our students while showcasing their talent at different Institutions has brought pride to our college.*

*Our students have performed well at different cultural extravaganzas held at IIT, IIM.  
We are proud of our students as they have also used their talent to highlight many social causes.*

# Rendezvous

## CEO's Blessings

*It gives me immense pleasure to introduce our first newsletter VIHAAN, which will give a glimpse of our campus highlights. The current newsletter focuses on the activities of our students and their achievements. Ambalika as an Academic institute has continued to grow and gain momentum: our programs are dynamic in practice with new courses being added. We remain a vibrant center of activities and events. We have an increasing display of conferences, seminars, lectures, workshops that are conducted throughout the year for our students and faculty alike, that will be showcased through our newsletters. I congratulate the editorial team, faculty, staff members and students for their contribution in the maiden issue of 'Mind Machine'. It is an attempt of the newsletter to acquaint its readers with the achievements of Ambalika Institute of Management and Technology.*

**Ambika Misra** Executive Director

## Director General's Message

*I am happy that AIMT is starting a college Newsletter. The college newsletter will definitely help to showcase the events and activities taking place in the campus. I feel that the Newsletter is a communication tool that contributes towards building up team work which is very much needed in today's world of competition. It provides a platform for highlighting the achievements of the students as well as the faculty. This enhances the documentation culture of the institute. The library of our institute is very rich in terms of books and journal collection, and is growing rapidly and steadily. One of our greatest strength is our highly qualified and dedicated faculty members and staff. Our students are very innovative and ever eager to learn new concepts. Apart from teaching, our faculty members are deeply engaged in research work. Our students have demonstrated their capabilities by securing internship in highly reputed organizations. Our faculty and students regularly present their research findings in various academic conferences.*

**Dr.S.Q. Abbas** Director General

*Congratulations to the members of editorial board and the faculty members.*

## From the Director's Desk

*A thought that becomes a reality, a mind that is readable is truly an interesting experience. I feel honored and grateful to start the first edition of our newsletter. This newsletter will serve to reinforce and allow an increased awareness and an improve interaction among all of us. It will not only serve the objective of creating responsiveness but will give a platform to new ideas, progress and creativity. I do hope that it will encourage faculty, students and others to contribute regularly in making our newsletter a success and may it acquire great heights in the years to come.*

**Dr. Alok Mishra**, Director

## From the Director (COE)'s Desk

*Achievements, good work, excellence are meant to be shared, and I am happy that now we'll be having a great platform for sharing information, as we are launching the 1st edition of our newsletter VIHAAN. It is well said that "literature is one of the most significant expressions of humanity"*

*I truly believe in the above lines, and when literature and writing creates innumerable expressions of knowledge, thoughts, motivation, information and creativity it gives immense exposure and experience. I congratulate the Mind Machine team on its enthusiasm, smart approach and altruistic interest in covering and collating happenings at college. I wish you all good luck, continue with fervor.*

**Prof. Mukul Gupta, Director COE**

## From the Director Diploma's Desk

*At the outset, my best wishes towards the launch of our new magazine.*

*My thoughts and reminiscence go back towards my early days in the nineties as editor of the Telco Darpan and the activities behind the launch. We had tough target of bringing out the in-house magazine in a span of 2 months and compete with the in-house magazines of our sister plants in Jamshedpur. We first brought into focus a cross functional team from all departments, giving them plum positions in our committee even though they were very busy in day to day production of vehicles. We made a detailed activity plan for the magazine, going backwards from the launch date- documenting every minute process from layouts, to the cover page and researched on articles spanning business, technical, and literary and feel good factor data from the lives of our employees and their families.*

**Mr. Ajay Trivedi Director Diploma**

*The team also had brief interactions with a number of employees, across the strata and the enthusiasm generated was infectious- we got tremendous response with articles also on achievements of the families with photographs. We also brought out small rewards for the best article and contributions in different fields, encompassing technical, culture and achievements. I was deeply touched one day when our Security walked in and desired that even though they were outsourced--they also wanted to contribute and we got several heartwarming articles detailing honesty and integrity of our workforce.*

*We used the Wingham Cultural Model--focusing on the values, beliefs and philosophies across different individuals who could believe in different cultures-just as a prism separates light into its component parts, we can use the cultural prism to look at the nine cultural dimensions- like change tolerance, group dependence, relationships, communication. The simple message we communicated to our team members in the magazine group was that the attitude and values that we hold, impact all of our behaviors, including our preferred style of communication. Needless to say we were awarded the best magazine from all the Tata Plants.*

*Here at AIMT- our tremendous diversity reflects our Institution's desire to incorporate different styles of leaning, new ways to thinking and approaching performance.*

*In our new foray into making our magazine a success- we must leverage the tremendous innovative potential of our students and faculty and promote and encourage out of box thinking, teamwork and positive interdependence so as to bring about a world class magazine benchmarking with the best-in-class.*

It is with great pleasure that we bring you the first issue of VIHAAN, the quarterly newsletter of Ambalika. This Newsletter aims to keep you updated on all that is happening inside the college. Here you will find everything that is happening across departments. We hope to keep you informed about everything that matters to you both internal and external. This will serve as an effective communication tool to bring people at AIMT closer. With this Newsletter we aspire to build a positive, supportive culture for everyone who is a part of this Institute.

## Vibhuti Mishra

**Arup Chauhan**

**BEAUTY & BRAINS**

**Prince Raaj**

*The fresh face was organized By TIMES OF INDIA, at Ambalika After winning the title here, students compete further at a bigger platform in Mumbai, The jury was really impressed by the performance of the young and talented crowd at Ambalika.*

## POSITIVE THINKING

*Each day is a series of different experiences; it may be good or bad. However, we all want to overcome them in a positive manner. To incorporate the same we need to take the first step towards "Positive Thinking". As we all are aware that mind is a very powerful tool, it may create wonders or destroy. So we need to focus and create thoughts which are good, nourishing and healthy for us and others. If we introspect a little more we understand that the thoughts we are thinking is a part of our own belief system. So time and again we need to check this belief system and know that what needs to be retained and what needs to be changed. As we may bring small changes in our way of thinking, we start looking at the things or situation from a new perspective. In other words we may say as the negative thoughts move out of our life, we as an individual may notice growth of our inner wisdom. When we trust life, it will surely unfold itself as a miracle. So today we promise ourselves to think "Positive Thoughts" which will help us all to grow in this journey of life. BY- Anjali Mehra*

## 'LIFE IS A CHALLENGE'

*Accept the challenges of life and keep growing wiser with each passing day. All through life, it's a tough ride. You realize the heat, the exhaustion and the hype of a long journey that's yet to be accomplished. There's no way back and even if there is, it's not what you start out for. So why not visualize the victory once you cross the hurdles and win over this forlorn trip. Of course you will face the heat of toughness and failures but those are just blessings in disguise, don't become feeble at any cost and always come out as a champion which you are born to be. While the heat of the challenges tests your patience, shower over it the passion of perseverance. No one becomes successful overnight, a lot of sweat and blood is gone into what one aspires to achieve in life. People who are negative will always de-motivate you and instill into you an ocean of negativity and defeat you in conversation by their experiences. Always choose your friends wisely and be optimistic about life.*

*Just go out there and enjoy with whoever/whatever you have and never ever from now onwards complain about things which aren't worthy of your attention... By- Deepak Shukla ME 3rd yr*

## FRESHER'S PARTY

*As the name suggests there is always an excitement for the Fresher's party amongst the newcomers. Students of AIMT organized a Fresher's party. The party organized on the campus was a fun filled affair. The theme for the day was "OUR IDOL". The students from 1st year had to dress & perform according to the person they admire.*

*The party started with Ganesh Vandana on "Gajanana", the welcome song was appreciated by the audience. It was followed by various dance and singing performance by the 2nd year. The competition for Mr. and Ms. Fresher was tough. Vibhuti won the title by her tremendous performance as Neerja and witty answer in the question-answer round and of course our Mr. fresher Abhishek Awasthi*

*impressed everyone with his excellent Indo - classical singing.*

*No event is successful or complete without a performance by our honorable ED Sir. His singing is the highlight of the whole show. For our students his songs have become the College anthem. The audience always waits for ED Sir's electrifying performance.*

## Charity Programs "ARPAN"

*On special days like Gandhi Jayanti, Independence Day, Republic Day the college believes in sharing happiness. Our Director's have always played a major role in establishing charity program. Our college and hostel committee "ARPAN" visited an Old age home. It was a two day charity program- On the first day students conducted the contribution activity and the second day they went visiting old age homes. They not only provided clothes and necessary items, but our young talents gave them a day full of memories by performing (song & dance) and interacting with them.*

*'At the end of your life you will, probably end up in an old age home, or in a back room in one of, your children's houses, left only, with a handful of fading memories and a body racked with great, pain and suffering"— Fredrick Lenz But in that fading memory if a new happy memory emerges it gives peace that satisfies the soul, which was the objective of our Ambalika family.*

## MOTIVATIONAL MUSING

*MOTIVATION As definition says, it's a force or push to achieve your goal. But do we really need that push? A goal which is to be achieved is inherited inside a soul and is never taken from any other body, and if that goal, desire, want is really important it will never ask for a push. The requirement of that achievement will automatically push you. Some say that the hardship is the part of reaching a desire, and this desire needs a light and a reason to reach it, else it becomes impossible. But if the light is inside the soul of an individual it will reflect throughout the path which helps to overcome the hardships in between and there is no need of another light source. The great personalities as they say motivate others, but did they ever think of motivation? Who made them achieve what they are now or what they were? There was a inside zeal and enlightenment in them which motivate others. As every unique soul or individual is different, for some its a spider building its web that motivates, for some it's the birds that become the reason to fly. So let's give a thought as to, 'Why we are'? Is it only for the love of our parents, for affection and for pampering, only for schooling, studies, a billionaire's job, on being a wife/husband or is there some other big reason, which will be a motivation for us to live for it. But some take their whole life to find that reason. So look around and find that reason to be here, look around and observe that light for your path, or make your internal soul bring out that light in you. Then together each light will brighten the whole world. By- Garima Sharma*

# TECHNICAL EXPOSURE *with Zeal*

## COMPETITION *Tech Fest*

*It is always an honor and pride to organize AKTU'S tech fest in our campus. There were Two rounds held at different colleges of AKTU and the final round was held at AMBALIKA. DEBATE, Jam, Bridge Making Competition, Robo race were the events whose final round was conducted at Ambalika. Our respectful HOD of EC branch had taken charge of the event. With his expert guidance it was easy to manage and the event was a great success. It was a memorable day and kudos for Ambalika as our students performed really well.*

# A ROAD OF *Guidance Towards* *Science-DST*

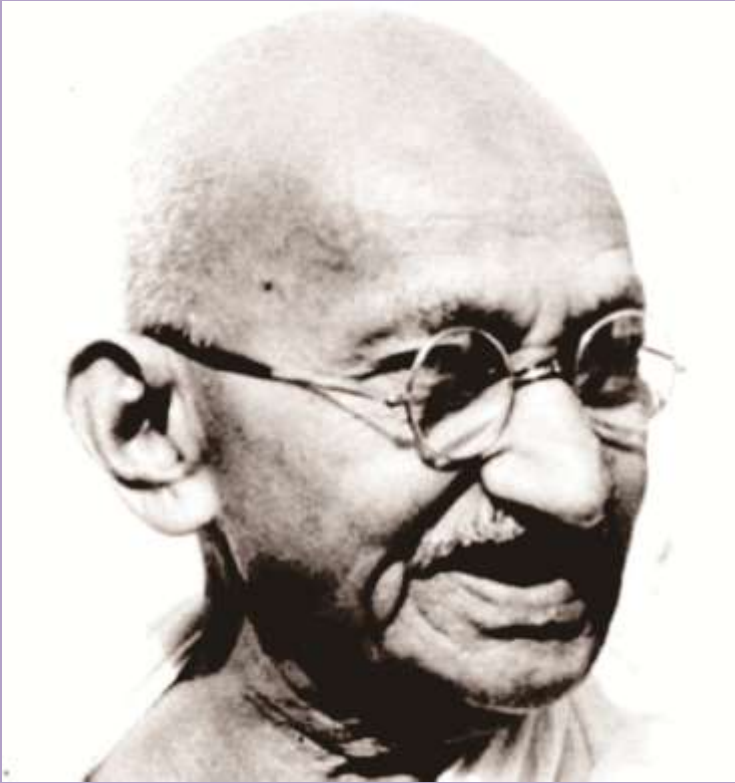

## WORKSHOP INSPIRE

*Motivating young talented youths to take up Science is an important responsibility. By providing them knowledge, experience and practicality of subject, we as a college are delighted to conduct this camp in our campus.*

*"To make a decision all you need is authority, to make a good decision all you need is knowledge, experience and insight." Making decision with regard to their goals and career is the biggest dilemma in a student's life. This camp serve's the objective to provide information and experience to students on Science as a career and make them aware of several new paths in the field of Science.*

*We were honored to welcome professors, lecturers and other knowledgeable personalities from IIT and other renowned Institutions. Their valuable input served the student's purpose but also created a better understanding among all. It was an eye-opener for the students. Students not only attended lectures but were given practical experience in the Ambalika KUKA ROBOTICS Lab and CNC Lab.*

## DEBATE & ESSAY

*Writing Competition on  
Account of*

## GANDHI JAYANTI

*After the successful accomplishment of our charity program, it was another event which generated a feeling of patriotism among students.*

*We conducted an essay writing "call for paper" and debate "raise your thoughts" competition among students. The topic was "RELEVANCE of GANDHIJI'S IDEOLOGY IN TODAY'S WORLD".*

*About 130 students participated in the event. It generated a diverse thought process. Our jury members were impressed by the students writing skills and oratory.*

# Seminar

*It was a wonderful experience as students attended a political seminar in Hotel Taj, Lucknow. They also participated in the debate. It was an honour for the students to get this opportunity as our Hon. Chief Minister Mr. AKHILESH YADAV was the Chief Guest. It was an excellent brainstorming and knowledgeable session for our students.*

# Fresher's Orientation

*Anxiety, inspiration ,motivation are the big words that stay stuck with students from the time they start understanding the meaning of these words.*

*The orientation program removes the nervousness of students starting college because of all the unknown facts about the system —there are questions like—what should my major be? Will I make new friends? How will I find my classes? Whom do I approach if I have a question; this program is designed to guide new students in answering all their questions.*

*The Technoambalikans, a team of dedicated and passionate student engineers. It is a team of future leaders who are eager to mark their position in world of motor sports and automotive engineering. It is a fast growing team. Team Technoambalikans is non-profit student run organization of Ambalika Institute of Management and Technology dedicated to fielding competitive formula race car annually at international design and racing event SUPRASAЕ. •Team Technoambalikans built the F1 car in record time to compete in the Supra Sae competition taking place at the Buddha International Circuit (BIC), Greater Noida. The team had 25 members of the Mechanical Engineering Department.*

# BHARAT VIKAS PARISHAD

*workshop  
on  
overall*

## DEVELOPMENT

*BHARAT VIKAS PARISHAD had organized a three day camp in our college. It was a state level program organized with the objective to inform students on the development and growth of our country in all fields of human endeavors -cultural, social, academic, moral, national and spiritual - by promoting a sense of patriotism, national unity and integrity. It was an Informative session and the camp initiated a feeling of togetherness. It enhanced the feeling of belonging and responsibility towards Indian society. Students attending the camp also came from out-of-station and showed immense interest.*

# REMEMBRANCE

*We are very sad to let you know about the sudden and tragic demise of our student Vaibhav Raj in a road accident. Vaibhav was a student of civil final year. He was a good, disciplined boy and loved by his fellow students. He will be missed by Faculty and the students alike.*

*Our heartfelt condolences to the family. Our thoughts and prayers are with the family during this difficult time and may the love of those around comfort the family through the days ahead.*

*Rest in Peace Vaibhav.*

*With very heavy heart we give you the sad news of the unexpected death of a member of our Ambalika family, Shashank Maurya. Shashank was an intelligent student with a bright future ahead. He was a student of 3rd year B.Tech Mechanical engineering at Ambalika. He scored 80% during his 10th boards and*

*consistently performed well on all fronts. Here at Ambalika he was a disciplined student and a quick learner. He attended his classes on a regular basis and his performance has remained good throughout his 3 years with us. Our thoughts and prayers are with the family. Rest in Peace,*

## Teacher's Day

GURU BRAHMA , GURU VISHNU, GURU DEVO MAHESHWARAY,  
GURU SHAKSHAT PARABRAHM TASMAY SHREE GURUVEY NAMAH.

*The event commenced with this great saying.*

*The event was not only a tribute to Dr. Radhakrishnan, the students also dedicated the day to commemorate the entire faculty, professors, and heads of the college.*

*Students showed their gratitude through various performances. The video presented by students created an overwhelmed and heartfelt aura. It was followed by singing performance and games that was enjoyed by everyone present.*

*The effort and hard work of the students made the day memorable. It ended with a perfect note with ED Sir, D.G. Sir and Director Sir sharing their motivating and inspiring thoughts with token of gifts for the faculty members.*

# ALL MY LIFE

*All my life, I was told "Things won't be easy" Yet, All my life I believed "Won't be impossible either" No one knows me, No one knows my story No one knows what's hidden behind these smiles. No one knows the stories behind these scars. But people do know my name And find it enough To form an opinion about me. Decided it is then, That I'll be a bit more inadvertent That the glass in front of me Will be perceived as half full. That I'll be a bit less negative But apart from being successful, That I'll be a bit less cruel That I'll be kind, Because there are numerous people around me Who are faking smiles, just like me. Strong people. Good hearted people. By — Rajat Sharma Cs 2nd yr*

# WORDS *by Impression*

**Pooja Anand**

**Artech Info systems Pvt. Ltd.**

*The Institute is full of positivity, and the experience of conducting placement is really good as placement committee is really helpful as we were able to conduct drive with the best thoughts and results.*

**Jayant Krishna**

**TCS**

*An impressive institute with a corporate environment and focus on IT-enabled technical education. I wish it all success!!*

**Rupam Banerjee**

**ICICI**

*An upcoming candidates needs to be more confident and positive, needs to be more practical in approach. Knowledge of equity which is essential for finance sector will be appreciable, our expectations are more as the previous students are really working good and giving their best efforts in the market growth and development.*

# एक फौजी का दर्द

उरी में हमले, पुंछ में हमले फिर भी तुम खामोश रहे, ए. सी. वाली कारों में, ताकत तुम मदहोश मिले।

जब बात वतन की नाक पर आयी “बीमारी” से बेहोश मिले, उरी में हमले पुंछ में हमले फिर भी तुम खामोश रहे। ए. सी. वाली कारों में ताकत में तुम मदहोश

मिले। जब सरहद पर पूनम की चांदनी में एक फौजी गुजर गया, रब राखे कौन अनाथ हुआ और किसका बेटा बिछड़ गया। फिर हुआ सबेरा आँखें रंग के टीवी के आगे बिफर गया, तू क्या जाने किसका शौहर किस राखी से मिटर गया। जब कलम हुआ था वो फौजी.....उसे तुम सबने ही मार था, दुश्मन से नहीं हारा था पर वो तुम सब से ही हारा था। तुम कहते जन से-“तुम अपनी धरती की पैरोकार करो। “..... खा के जनता का पैसा पर तुम सपने अपने साकार करो। तुम आग लगाते गाँवों में, माटी को तुम बदनाम करो..... फौजी को बोलते तुम-“उतना जितना मैं बोलूँ काम करो। ...” देश जला के आग सेकते तुम दुश्मन के देशों संग, आम आम आदमी करे शिकायत तो फैलाते जाती के रंग. जी चाहे की जला के रख दू तेरी सलतनत और हवेली को.... फिर कर मैं छलनी तेरे इस चाँद फकीरी को... अपने साथी फौजी का शव अपनी काँधे से उठाया था, काट गया था मेरा तंग कलेजा जब मैंने भाभी माँ को रुलाया था... सच कहता हुआ सब जी, ये गला रूंध चीत्कारा था, जब उसका विक्षिप्त शव ले जा उसके बच्चे को पुचकारा था. बाप था उसका बिलख रहा, मेरा ज़मीर भी रूठ रहा था.... नज़र उठा के जब देखा- तो आसमान भी टूट रहा था.... फिर याद मुझे उनकी भी आयी जो “चिरनिद्रा” में लीन, उन बेचारों के लिए भी हम कितने गमगीन हुए थे। किसी की शादी तय ही हुई थी, किसी की चिट्ठी आनी थी.... किसी के माता-पिता ने कर दी, किसी की प्रेम कहानी थी। आज किसी का अँधा बाप स्टेशन पर गाली खाता है.... आज कोई विधवा पर गंदी नज़र फिराए जाता है। आज किसी के घर पर उसकी बेहेन कंवारी बैठी है.... आज किसी दरवाजे पर एक माँ भिखारन बैठी है। भेजा था अपना बेटा भारत वर्ष बचाने को, पर देख दुर्दशा इन सब की जी करता है मर जाने को। कोर्ट मार्शल कर दो मेरा या बोलो मुझको मर जाने को, पर रात मिली थी बस इक मुझको उन सबका बदला लाने को। उस रात मिला मौका मुझको उस लहू लाने को, हमको भी सौभाग्य मिला दुश्मन को मार गिराने को। भारत माँ के दामन को रंजित किया था वो कलंक मिटा के आया हूँ, दुश्मन को मैं उसके घर में सबक सिखा के आया हूँ, वो एक काट के ले गए थे मैं चार काट के लाया हूँ।

By – Alok Kulshrestha CE 3<sup>rd</sup> yr

## “कुछ बात तो होगी ही”

कुछ बात तो होगी ही .....आपस में एक दजे से लड़ते कभी नहीं नेता हमारे पीछे जो पड़ते कभी नहीं दुनिया हमेशा उसके ही कदमों को चूमती तिल भर भी जो सच्चाई से टलते कभी नहीं। अपने परों पे चिड़िया का विश्वास देखिये कारण यही है शाख से गिरते कभी नहीं। औरो के रास्ते में जो कांटे हैं वो रहा राहों में उसके फूल तो खिलते कभी नहीं। कुछ बात तो होगी ही जल रहे चराग में

“दीपक” यूँ आँधियों में तो जलते कभी नहीं।

## ये युग मशीन का है

ये युग मशीनों का है! मशीनों ने इंसान को भी मशीन बना दिया है कुछ लोग कहते मशीनों ने ज़िन्दगी को हसीन बना दिया है मशीन दोस्त हैं हमारे, भूलकर भी मत सोचना जरा सी चूक हो जाए फिर देखना। सारी इंजीनियरिंग धरी रह जाती है और मशीन की थ्योरी किताबों में पड़ी रह जाती है। मैं मशीनों का विरोधी नहीं हूँ और कहना यही चाहता हूँ कि मैं मशीन बनकर जीना नहीं चाहता हूँ। मशीन हमें चाँद पर ले जा सकते हैं हमें मंगल पर पानी दिला सकते हैं। मगर मेरे दोस्त, मशीन बिल्कुल बेशऊर हैं वे हमारी भावनाओं से बहुत दूर हैं। हम मशीनों को उँगलियों पर नचाते हैं जब चाहे जो चाहे कर के दिखाते हैं। ये युग मशीनों का है, हमें मानना होगा पर मशीनों से पहले खुद को जानना होगा

By- LOKENDRA MANI MISHR

### FROM EDITOR'S PEN

*"Wisdom is not any individual's propriety and the same could be said about creativity. The news letter in any institution provides a platform to bring out creative abilities of its students. Vihaan is student's creation and shall remain so. In the present format it gives immense opportunity to our students to be ethically creative. The role of editor is only to guide the students and it shall remain so. All the best to all the students in their Endeavour. "*

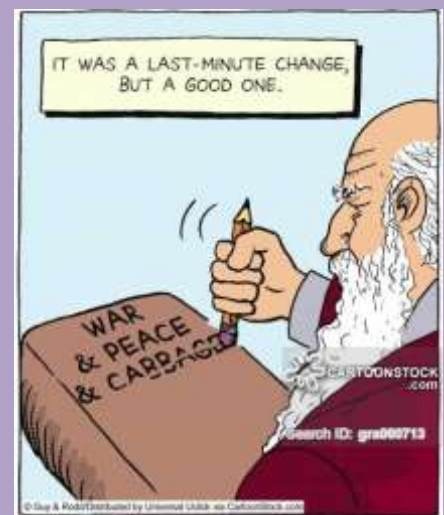

Ravi Shanker Mishra  
Head of Department Civil Engg.  
Editor

### AND ASSOCIATE EDITOR'S INK

*"Creation is not any body's proprietary particularly when it comes to the students .VIHAAN is ready to provide a platform to our students for their creativity and keep them abreast about the happenings and events in the campus. Since examination are round the corner I wish all the students GOOD LUCK."*

Alok Mishra  
Asst. Prof (CS department)  
Associate Editor

*"Student Centered Teaching is present day requirement for any Technical Education as technologies are changing fast and every student has got different bent of mind. Now it is up to the teachers to read their mind and orient them in necessary direction."*

Dr. P.K. Dwivedi  
(Dean Academics)

# EVENTS IN PRECEDING HALF

## EVENTS IN PRECEDING HALF

1. *Ambalika always considers its students as part of its family and in the same spirit this year also new entrants of the college were given warm welcome in the months of July-August. Everybody was cautious so that new entrants may not feel alienated.*

- *Welcome for the new entrants of Ambalika family.*
- *Three orientation programs.*
- *Induction Programs Sponsored by AKTU.*
- *Independence day Celebration.*

2. *Three orientation programs in a row for the benefit of new entrants were organized all the concerned authorities attended to the programs and presence of CEO in all the programs was most inspiring for the new entrants. These orientation programs go a long way in keeping our students abreast with the rules and regulations of the college.*

4. *Independence day was celebrated in the college on 15<sup>th</sup> of August 2017. The program started with flag hoisting ceremony by CEO Sir. Skit played by students was highlight of the program. Some wonderful patriotic songs by CEO Sir and other members of the faculty was enjoyed by all. Song by our star performer Vani Tripathi (CS 3<sup>rd</sup> Year) took the audience to some other plane*

3. *University sponsored Induction programs was organized by Applied Science department for First Year Students. The enthusiasm of members of the faculty from AS department was clearly visible. Program was so beautifully designed that all the students enjoyed it. This program also prepared them for future journey ahead.*

*1. Teacher's day was celebrated in the college to recognize the role of Teachers in nation building. Students from all the departments paid tributes to the contribution of teachers in framing their careers.*

- Teacher's day celebration
- Seminar on Intellectual Property Rights
- Workshop on photography
- Idea Conclave

*2. A seminar under the auspices of PHD Chamber of Commerce on Intellectual Property Rights was organized and highlight of the program was participation from joined Director MSME & other higher ups in PHD chamber of Commerce.*

*3. Passion of our CEO is well known for photography. He very graciously displayed the gadgets which he uses for wild life photography. All the students participated enthusiastically.*

*4. Idea Conclave was organized in collaboration with PHD Chamber of Commerce on 20<sup>th</sup> of November 2018. Wonderful technical ideas came from students.*

## *Up Coming Events*

*IOT*

*(Internet on Things)*
