- To facilitate the transfer of expertise and knowledge from higher educational institutions to rural areas.
- To provide a platform for students and faculty to engage with real-world issues, and social responsibilities.
- To encourage collaboration between academic institutions and local communities to create innovative solutions for rural development.

Summary of Event (Approx. 100 words)

Unnat Bharat Abhiyan (UBA) is a flagship program initiated by the Ministry of Education, Government of India. It aims to bring transformational change in rural development processes by leveraging knowledge institutions to address the development challenges of rural India.

On December 11, 2024, AIMT conducted a Knowledge Transformation activity under the Unnat Bharat Abhiyan (UBA) at Heeralal Inter College, Sisandi, Lucknow (village adopted by AIMT). The event focused on promoting rural development and empowering local communities through education and sustainable practices. During the program, faculty and students from Ambalika Institute engaged with the college's students and conducted a session on Basics of C Language by Mr. Krishansh Kumar Roy, 2nd Year, B.Tech (AIML). These sessions aimed to enhance the technical skills of the students.

The event also featured interactive sessions where participants discussed their local challenges with the faculty. This initiative is part of AIMT ongoing commitment to the Unnat Bharat Abhiyan mission, striving to bridge the gap between urban and rural development through education and community engagement.
